What is Gaudea

We are olive growers. We only work with **Arbequina** olives: all our oils are extra virgin, and our Arbequina and Signature lines are cultivated, harvested and elaborated following the demanding indications of the **Les Garrigues PDO**. We use only mechanical and cold extraction procedures to preserve the purity of the Arbequina. In this way, every year we harvest more than 500 tons of olives in the 75 hectares of our fields and we produce about 100,000 liters of oil.

Gaudea's environment

Gaudea's daily takes place in the **Segrià** region. Our estate, located ten minutes from the emblematic city of Lleida, is in an **ideal rural setting** for the production and care of olive oil.

What is Gaudea

We bring to the customer four types of oil: **Arbequina, green Arbequina, Signature and Oliera ECO.**

We also produce the **Textures line**, which includes almonds, olives, marmalade, olivada and chocolinas, and the surprising **Gaudea Botanics arbequina olive gin.**

We take care of every detail of the production process, all with the purpose of bringing Mediterranean culture closer to the table, so that it reconnects with the roots of our land.
